WAR OR PEACE?

Brutality is respected. People need wholesome fear, they want to fear something, they want a source to frighten them and make them shudderingly submissive. Why babble about cruelty and not indignant about violence? People who are violent will give others a thrill of attack. When it is violent, it is finished that the degree of violence characterizing the action is the one factor for measuring the happiness of the people and the more this happiness because where the violence is greater, the shock upon the nervous system will be sharper, then it will be the best. The listeners of the most forceful will be the best. The listeners of the most forceful will always enjoy the most intense reactions of all. Because they are the most violently responsive records of the world.

the most violently  
repulsive records  
ever conceived.

PRESS RELEASE

PS-06/82  
22 March 1982

CENSORSHIP BY THE UNIVERSITY OF LONDON UNION  
AGAINST WHITEHOUSE

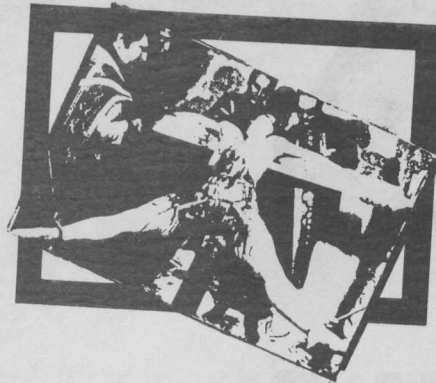

On the 10th of February we sent one of our records to Allen James, the person responsible for organising concerts at the London University Union in Wale St. W.C.1, with a letter stating that we were willing to perform at the Union when possible.

After failing to reach Mr. James through countless telephone calls I was able to contact him on the 19th of March to be told that "the content of your L.P. is against the Students Union policy".

Therefore we feel that this undemocratic censorship of WHITEHOUSE by these politically motivated Union leaders is most unfair, not only on us but to the members they claim to represent.  
This is NEW BRITAIN 1982.

Yours easily,  
*George Valls*
